SUBTOTALS →						167001	21400	188401

CONSULTANT COSTS Design Verification	3600
EQUIPMENT *(Itemize)* Gel Electrophoresis & transfer equipment : 3000$ Tissue culture biosafety cabinet & Incubator: 11000$ MD simulation Workstation: 5000$	19000
SUPPLIES *(Itemize by category)* External Hard Drives: 5000$ Cell-Culture Supplies: 3100$ Transfection Supplies: 5400$ Western Blotting Supplies: 4000$	17500
TRAVEL Domestic travel: 18400$, International Subtotal: 13,000$	31400
INPATIENT CARE COSTS n/a	0
OUTPATIENT CARE COSTS n/a	0
ALTERATIONS AND RENOVATIONS *(Itemize by category)* Biosafety Cabinet Duct Installation & Certification: 6000$	6000
OTHER EXPENSES *(Itemize by category)* General Other/Contingency: 5000$ Biological waste disposal: 5000$ Shipping/Collaborator Transport: 2000$	12000
CONSORTIUM/CONTRACTUAL COSTS — DIRECT COSTS	5000
SUBTOTAL DIRECT COSTS FOR INITIAL BUDGET PERIOD *(Item 7a, Face Page)*	$ 282901
CONSORTIUM/CONTRACTUAL COSTS — FACILITIES AND ADMINISTRATIVE COSTS	2500
TOTAL DIRECT COSTS FOR INITIAL BUDGET PERIOD	$ 285401

Budget Justifications

Design Verification: 3600$
Designs and plans will be verified by licensed professional engineer Jimmy Hendricks (No#:11435654945) at his rate of 200$/hr. Mr. Hendricks will verify the project plans 3 times a year for the next 3 years.

Gel Electrophoresis & Transfer Equipment: 3000$
GE equipment will be purchased from ThermoFischer Scientific, no core lab facilities exist near our laboratory, GE equipment

Biosafety Cabinet / Incubator: 11000$
Sourced from AMHV International and Panasonic respectively. Shared lab space biosafety cabinets use bacterial cells, and the risk of contaminants is too great to not warrant a new cabinet.

MD Simulation Workstation: 5000$
Computational cluster setup for protein calculation on proprietary NDA-safe data. Distributed decentralized computation will be used for general non-proprietary, non-NDA-safe data.

External Hard Drives: 5000$
Data storage is more expensive if done over the cloud over time. 1 Petabyte of data storage.

Cell-Culture Supplies/Consumables: 3100$
This includes HEK293 cells sourced from ATCC, DMEM+ materials (ATCC), FBS's - 500mL (ATCC), PBS(ATCC), trypsin, penicillin-stroptomycin, L-glutamine (Sigma-Aldritch), serum-free media, as well as cell culture flasks, plates, wells, pipettes and tubes (Corning).

Gene Transfection Supplies/Consumables: 5400$
Includes Lipofectamine 3000, Maxiprep kits (6x), Damaged kinases (gene synthesis contracted with GenScript)

Western Blotting Supplies: 4000$
Primary and secondary antibodies, sourced from Santa Cruz Biotechnology, Precast SDS-PAGE gels (SCB), transfer membrane, blocking buffer, ECL Substrate, running buffer (SCB), and Imaging Consumables (FLOTech).

Travel:

Domestic: 18400$
Registration Fees (~$400–700/person) x ~7–8 trips over 3 years — ~$3,000–5,500
Airfare Cost (~$300–600/person) — ~$2,000–4,500
Hotel Cost (~$150–250/night x 3–4 nights/person) — ~$3,000–6,000
Meals Cost (~$60–80/day x 3–4 days/person) — ~$1,200–2,400

International: 13000$
Registration Fees (~$600–1,000/person) x ~2–3 trips over 3 years — ~$1,200–3,000
Airfare Costs (~$800–1,500/person) — ~$1,600–4,500
Hotel Cost (~$180–280/night x 4–5 nights/person) — ~$1,400–4,000
Meals Costs (~$80–100/day x 4–5 days/person) — ~$600–1,500

Biosafety Cabinet Duct Installation and Certification: 6000$
The Biosafety cabinet will need to be installed and hooked up to a high CFM volume airflow system. The system is available, but a new duct must be added to the lab to connect with the BSC. (3500$) Following this, Inspector John Cramer will inspect and certify the BSC which will last the duration of the project. (Certification fee 1600$, Inspection fees: 900$)

General Other: 5000$
We also request an additional 4000 for contingency. As we are working with a large number of collaborators, the marginal chance that reagents or supplies become damaged in shipping becomes non-marginal. The last 1000$ will be only spent on chips and queso at “On the Border” cafe. Yes, we plan to eat one thousand dollars worth of chips and queso. This is a valid and important consideration for the future of science, thank you.

Biological Waste Disposal: 5000$
Biological waste disposal services request a deposit of 950$, annual fee for services is 1350$.

Shipping & Collaborator Transport: 2000$
2000$ is requested to pay for shipping and handling of supplies, as well as samples and intermediate conjugates between institutions and industry collaborators.
